Principal's Message

Education is a life long process with a formal education for many of our children starting here at McKenney-Harrison School. It is our intent to provide a school where children will acquire knowledge, skills, habits, and values that they will carry with them as they proceed through their years of formal schooling, so that throughout their lives they can be intelligent, responsible, happy, producing, and well-informed citizens. Along with having a serious side, education should be enjoyable. We hope to make it that way for our students here at McKenney-Harrison School.
